**Directors' Statement**

*For the financial year ended March 31, 2024*

The directors present this statement to the members together with the audited financial statements of the Company for the financial year ended March 31, 2024.

**1 Directors**

The directors of the Company in office at the date of this statement are:

Balaji Viswanathan  
Vasanthi d/o Jeyabalan  
Sabat Anup Ranjan

**2 Arrangements to enable directors to acquire shares and debentures**

Neither during nor at the end of the financial year was the Company a party to any arrangement whose objects are, or one of whose objects is, to enable the directors of the Company to acquire benefits through the acquisition of shares in, or debentures of the Company or any other body corporate.

**3 Directors' interest in shares and debentures**

The directors holding office at the end of the financial year had no interests in shares, debentures, warrants or share options of the Company as recorded in the Register of Directors' Shareholding kept by the Company under Section 164 of the Singapore Companies Act.

**4 Share options**

During the financial year, there were:

- (i) no options granted by the Company to any person to take up unissued shares of the Company; and
- (ii) no shares issued by virtue of any exercise of option to take up unissued shares of the Company.

As at the end of the financial year, there were no unissued shares of the Company under option.

**Directors' Statement**

*For the financial year ended March 31, 2024*

**5 Auditors**

The auditors, Natarajan & Swaminathan, have expressed their willingness to accept re-appointment.

**6 Directors' opinion**

In the opinion of the directors,

- (a) the financial statements of the Company are drawn up so as to give a true and fair view of the financial position of the Company as at March 31, 2024 and the financial performance, changes in equity and cash flows of the Company for the financial year ended on that date in accordance with the provisions of the Singapore Companies Act 1967 and Financial Reporting Standards in Singapore; and
- (b) at the date of this statement there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

The Board of Directors

**Notes To The Financial Statements For The Financial Year Ended March 31, 2024**

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

**1 Corporate information**

The Company (Registration No. 200107523G) is a private limited Company incorporated and domiciled in Singapore.

The registered office of the Company is located at 1, North Bridge Road, #19-04 High Street Centre, Singapore 179094.

The principal activities of the Company are to provide software testing and related consulting services and placement of software professionals.

There have been no significant changes in the nature of these activities during the financial year.

*Holding company*

The Company is a wholly owned subsidiary of **“Expleo Solutions Limited”**, a limited company incorporated in India. The ultimate holding companies are **Assystem S.A**, a company listed in Euronext Paris and **Ardian LBO Fund VI B**, a private equity fund, registered in France.

**2 Material accounting policy information****a) Basis of preparation**

The financial statements have been prepared in accordance with Financial Reporting Standards in Singapore (“FRS”) as required by the Singapore Companies Act 1967. The financial statements are expressed in Singapore Dollar (S\$) and are prepared under the historical cost convention except as disclosed in the accounting policies below.

The preparation of financial statements in conformity with FRS requires management to exercise its judgment in the process of applying the Company’s accounting policies. It also requires the use of accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the financial year. These estimates and assumptions are assessed on an on-going basis and are based on experience and relevant factors, including expectations of future events that are believed to be reasonable under the circumstances (refer **Note 2(b)** to the financial statements).

The accounting policies adopted are consistent with those of the previous financial year except that in the current financial year, the Company has adopted all the new and amended standards which are relevant to the Company and are effective for annual financial period beginning on April 1, 2023. The adoption of these standards did not have any material effect on the financial statements of the Company.

**Notes To The Financial Statements For The Financial Year Ended March 31, 2024****2 Material accounting policy information (Cont'd)****b) Critical judgements in applying the entity's accounting policies**

In the process of applying the entity's accounting policies, management is of opinion that there are no critical judgements (other than those involving estimates) that have significant effect on the amounts recognised in the financial statements.

*Key sources of estimation uncertainty*

The key assumptions concerning the future, and other key sources of estimation uncertainty at the statement of financial position date, that have significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

Provision for expected credit losses of trade receivables

The Company assesses the latest performance and financial position of the counterparties, adjusted for the future outlook of the industry in which the counterparties operate in, any probable receivables in dispute and past history of bad debts. Accordingly the Company measured the impairment loss allowance using lifetime ECL and determined that the ECL is insignificant. The assessment of the estimated default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Company's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future.

**c) Foreign currency transactions***(i) Functional currency*

The functional currency of the Company is Singapore Dollar, being the currency of the primary economic environment in which it operates.

*(ii) Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of transactions. Foreign currency monetary assets and liabilities are translated into the functional currency at the exchange rates prevailing at the statement of financial position date. Foreign exchange gains and losses resulting from the settlement of foreign currency transactions and from the translation of foreign currency denominated assets and liabilities are recognised in the profit or loss.

Currency translation differences on non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

The gain or loss arising on translation of non-monetary items are measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in other comprehensive income or profit or loss are also recognised in other comprehensive income or profit or loss, respectively).

**Notes To The Financial Statements For The Financial Year Ended March 31, 2024****2 Material accounting policy information (Cont'd)****d) Plant and equipment**

Plant and equipment are stated at cost less accumulated depreciation and impairment loss, if any. The cost of an asset comprises its purchase price and any directly attributable costs of bringing the asset to working condition for its intended use. Expenditure for additions, improvements and renewals are capitalised and expenditure for maintenance and repairs are charged to the profit or loss. When assets are sold or retired, their cost and accumulated depreciation and impairment loss are removed from the financial statements and any gain or loss resulting from their disposal is included in the profit or loss.

**e) Depreciation of plant and equipment**

Depreciation is calculated on a straight-line method to write off the cost of the plant and equipment over their estimated useful lives at the following:

Computer & peripherals - 33.33%

**f) Impairment of non-financial assets**

At each statement of financial position date, the Company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the greater of net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset (cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

When an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of impairment loss is recognised immediately in profit or loss unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

**Notes To The Financial Statements For The Financial Year Ended March 31, 2024****2 Material accounting policy information (Cont'd)****g) Financial instruments**

Financial instruments comprise financial assets and financial liabilities. A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**(i) Financial assets***Initial recognition and measurement*

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss (FVPL).

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVPL are expensed in profit or loss.

Trade receivables do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined per the Company's revenue recognition policy.

Financial assets that are classified and measured at amortised cost or fair value through OCI, are financial assets that give rise to cash flows that are "solely payments of principal and interest (SPPI)" on the principal amount outstanding. The assessment is referred to as the SPPI test and is performed at an instrument level.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

*Subsequent measurement*

For the purposes of subsequent measurement, financial assets are classified in four categories:-

- Financial assets at amortised cost
- Financial assets at fair value through OCI with recycling of cumulative gains and losses ("FVOCI")
- Financial assets elected at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss ("FVPL")

The Company's relevant financial assets category are financial assets at amortised cost.

**Notes To The Financial Statements For The Financial Year Ended March 31, 2024****2 Material accounting policy information (Cont'd)**g) **Financial instruments (Cont'd)**(i) **Financial assets (Cont'd)**Financial assets at amortised cost

The Company measures financial assets at amortised cost if both of the following conditions are met:-

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognized, modified or impaired. For short-term receivables the nominal cost approximates the fair value.

The Company's financial assets at amortised cost includes trade and other receivables.

*Derecognition*

A financial asset is derecognized when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset or has entered into a "pass-through" arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that had been recognised in other comprehensive income for debt instruments is recognised in profit or loss.

*Impairment of financial assets*

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at FVPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate.

**Notes To The Financial Statements For The Financial Year Ended March 31, 2024****2 Material accounting policy information (Cont'd)****g) Financial instruments (Cont'd)****(i) Financial assets (Cont'd)***Impairment of financial assets (Cont'd)*

The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is recognised for credit losses expected over the remaining life of the exposure, irrespective of timing of the default (a lifetime ECL).

For trade receivables, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment which could affect debtors' ability to pay.

The Company makes judgmental assessment for financial asset in default when contractual payments are past due. The Company considers a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

**(ii) Financial liabilities***Initial recognition and measurement*

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. For short term payables the nominal costs approximate the fair value.

The Company's financial liabilities include trade payables and accruals and other payables.

*Subsequent measurement*

The measurement of financial liabilities depends on their classification.

After initial recognition, financial liabilities that are not carried at FVPL are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the amortisation process.

**Notes To The Financial Statements For The Financial Year Ended March 31, 2024**

**2 Material accounting policy information (Cont'd)**

g) **Financial instruments (Cont'd)**

(ii) **Financial liabilities (Cont'd)**

*Derecognition*

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires when an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. On derecognition, the difference between the carrying amounts and the consideration paid is recognised in profit or loss.

h) **Cash and cash equivalents**

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash at bank.

i) **Provisions**

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each statement of financial position date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. Where the effect of the time value of money is material, provisions are discounted using a current pre- tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

j) **Contract liability**

Contract liability relate to the Company's obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liability is recognised as revenue when the Company performs under the contract.

k) **Revenue recognition**

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties and based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers, if any.

**Notes To The Financial Statements For The Financial Year Ended March 31, 2024****2 Material accounting policy information (Cont'd)****k) Revenue recognition (Cont'd)**

Revenue is recognised when the Company satisfies a performance obligation by transferring a promised good or service to the customer, which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

The Company provides software testing and related consulting services and placement of software professionals. Revenue from software testing service is recognised as and when services are rendered over the time period, using an input method to measure progress towards complete satisfaction of the service, because the customer simultaneously receives and consumes the benefits provided by the Company.

Revenue from placement of software professionals for software testing are recognised on monthly basis in accordance with the rates and terms of the contracts with customers. Services rendered to the holding company are billed at cost plus margin as per Transfer Pricing Agreement.

The amount of revenue recognised is based on the transaction price, which comprise the contractual price and variable considerations. The variable consideration included in the revenue is volume discount. The expected volume discounts rebates are analysed on a per customer basis whose contracts are subject to various volume threshold. The Company determines whether a customer will be likely entitled to rebate by calculating the customers' purchases to date, and analyzing the historical purchases patterns and rebates entitlement to determine the expected rebate per contract and the expected value of the variable consideration.

**l) Other income**

The other income is recognised on the following basis:

*Interest income*

Interest income is recognised using the effective interest method.

**m) Employee benefits***Retirement benefit costs*

As required by law, the Company makes contributions to the Central Provident Fund (CPF), a defined contribution plan regulated and managed by the Government of Singapore. CPF contributions are recognised as expense in the same year to which the contribution relates.

Employee entitlements to annual leave are recognised when they accrue to the employees. An accrual is made for the estimated liability for annual leave as a result of services rendered by the employees up to the financial position date.

A liability for bonuses is recognised where the entity is contractually obliged or where there is constructive obligation based on past practice.

*Key management personnel*

Directors and certain managers that have the authority and responsibility for planning, directing and controlling the activities of the Company are considered key management personnel.

**Notes To The Financial Statements For The Financial Year Ended March 31, 2024****2 Material accounting policy information (Cont'd)****n) Leases****Short-term leases and leases of low-value assets**

The Company applies the short-term lease recognition exemption to its short-term leases of machinery (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as expense on a straight-line basis over the lease term.

**o) Goods and services tax**

Revenues, expenses and assets are recognised net of the amount of sales tax except:

- Where the sales tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the sales tax is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- Receivables and payables that are stated with the amount of sales tax included.

The net amount of sales tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

**p) Income tax**

Income tax expense represents the sum of tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the profit or loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or tax deductible. The Company's liability for current tax is calculated using statutory tax rate at the statement of financial position date.

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each statement of financial position date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset, realised. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt, within equity.

**Notes To The Financial Statements For The Financial Year Ended March 31, 2024**

**2 Material accounting policy information (Cont'd)**

p) **Income tax (Cont'd)**

Deferred tax assets and liabilities are offset when there is legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on net basis.

**3 Plant and equipment**

**Notes To The Financial Statements For The Financial Year Ended March 31, 2024**

**4 Trade receivables**

	<u>2024</u>	<u>2023</u>
	S\$	S\$
Outside parties	660,692	496,903
Less: Allowance for doubtful debts		
- At beginning of year	-	(4,028)
- Reversal/(Charge) for the year	-	4,028
- At end of year	-	-
	660,692	496,903
Unbilled receivables	12,315	2,750
	<u>673,007</u>	<u>499,653</u>

The Company does not give a fixed credit term. No interest is charged on the trade receivables.

The table below is an analysis of trade receivables ageing as at March 31 (on 30 days credit basis):

	<u>2024</u>	<u>2023</u>
	S\$	S\$
Not past due	170,562	356,406
Past due 1 to 30 days	93,563	84,141
Past due more than 30 days	<u>396,567</u>	<u>56,356</u>
	<u>660,692</u>	<u>496,903</u>

The Company has not made any allowance on all these receivables as the directors are of the view that all the receivables are recoverable. The management does not foresee any significant credit risk with the receivables as customers are reputable and creditworthy. Trade receivables deemed with credit risk, if any, will relate to disputed amount or any probable financial difficulties faced by customer in fulfilling their payment. These receivables are not secured by any collateral or credit enhancement.

**5 Other receivables**

	<u>2024</u>	<u>2023</u>
	S\$	S\$
Related company:		
- Loan	2,000,000	2,000,000

<b>At end of year</b>	<b><u>32,669</u></b>	<b><u>40,601</u></b>

**10 Contract liability**

	<u>2024</u> S\$	<u>2023</u> S\$
Deferred revenue	<u>12,095</u>	<u>12,998</u>

**Notes To The Financial Statements For The Financial Year Ended March 31, 2024**

**11 Revenue**

	<u>2024</u>	<u>2023</u>
	S\$	S\$
<b>Type of income:</b>		
Service income from software projects	<u>1,022,627</u>	<u>767,668</u>
<b>Timing of revenue recognition:</b>		
Over time	<u>1,022,627</u>	<u>767,668</u>

The Company has recognised variable consideration of S\$66,999 (2023:S\$32,624) in relation to volume discount given to certain customers.

**12 Other income**

	<u>2024</u>	<u>2023</u>
	S\$	S\$
Foreign exchange gain	7,443	12,279
Interest income	<u>157,007</u>	<u>78,521</u>
	<u>164,450</u>	<u>90,800</u>

**13 Salaries and employee benefits**

Salaries and employee benefits for the financial years ended March 31:

	<u>2024</u>	<u>2023</u>
	S\$	S\$
Salaries, bonus and allowances	469,396	348,487
CPF contribution (defined)	11,092	8,954
Director's remuneration	189,288	170,755
CPF on directors' remuneration (defined)	29,000	-
Skill development levy	<u>650</u>	<u>487</u>
	<u>699,426</u>	<u>528,683</u>

*Compensation of directors and key management personnel*

The remuneration of directors and other members of key management during the year were as follows:

	<u>2024</u>	<u>2023</u>
	S\$	S\$
Director's remuneration	189,288	170,755
CPF on directors' remuneration	<u>29,000</u>	<u>-</u>

The key management personnel also comprise directors who do not receive any short-term employee benefits during the financial year.

**14 Profit before income tax**

In addition to the charges and credits disclosed elsewhere in the notes to the income statement, this item includes the following charges/(credits):

	<u>2024</u>	<u>2023</u>
	S\$	S\$
Reversal of allowance for doubtful debts - trade (outside parties)	-	(4,028)
Foreign exchange (gain)/loss	(7,443)	(12,279)
Lease - rent (short-term)	15,100	13,600
Professional charges	<u>173,953</u>	<u>139,063</u>

**15 Income tax expense**

	<u>2024</u>	<u>2023</u>
	S\$	S\$
Current year	23,167	11,700
Prior year under provision	2,618	5,969
Withholding tax	-	9,519
	<u>25,785</u>	<u>27,188</u>

The income tax expense varied from the amount of income tax expense determined by applying the Singapore income tax rate of 17% to the profit before income tax as a result of the following differences:

	<u>2024</u>	<u>2023</u>
	S\$	S\$
<b>Profit before income tax</b>	<b><u>237,563</u></b>	<b><u>141,193</u></b>
Tax expense at the rate of 17%	40,386	24,003
Statutory stepped income exemption	(17,425)	(12,535)
Deferred tax arising in the year not recognised	206	218
Prior year over provision	2,618	5,969
Withholding tax	-	9,519
Others	-	14
<b>Income tax expense for the financial year</b>	<b><u>25,785</u></b>	<b><u>27,188</u></b>

Deferred tax is not recognised as there are no significant temporary differences as of end of the financial year.

**16 Holding company transactions**

Some of the Company's transactions and arrangement are with holding company and the effect of these on the basis determined between the parties is reflected in these financial statements. The balances with these parties are unsecured, interest free, repayable on demand and are in the ordinary course of business, unless otherwise stated.

**Notes To The Financial Statements For The Financial Year Ended March 31, 2024**

**16 Holding company transactions (Cont'd)**

During the financial year, the Company had the following transactions with the holding company:

	<u>2024</u>	<u>2023</u>
	S\$	S\$
Income from software projects	1,022,627	767,666
Income billed on behalf of holding company (#)	1,803,426	1,409,667
Receipt on behalf of holding company	-	(1,191)

(#) This income represent income billed on behalf of the holding company. Due to certain customers' requirement the Company raises bills on behalf of the holding company to the customers directly. These billings by the Company are fully charged by a similar quantum of billing by the holding company to the Company, and consequently both amounts are netted off in the accounts.

The holding company undertakes full responsibility for the project execution, provides operational and management direction, technical literatures and training for the implementation of projects. Holding company enters into contract with the customer including the Company as party to the contract for billing purposes.

**17 Financial instruments, financial and capital risk management**

(a) **Categories of financial instruments**

The following table sets out the financial instruments as at the statement of financial position date:

	<u>2024</u>	<u>2023</u>
	S\$	S\$
<b>Financial assets</b>		
Amortised cost:		
- Trade receivables	673,007	499,653
- Other receivables	2,087,076	2,046,336
- Cash at bank	728,057	380,040
<b>Total financial assets</b>	<u>3,488,140</u>	<u>2,926,029</u>
<b>Financial liabilities</b>		
Amortised cost:		
- Trade payables and accruals ( <i>excluding GST</i> )	480,965	172,170
- Other payables	194,689	153,365
<b>Total financial liabilities</b>	<u>675,654</u>	<u>325,535</u>

(b) **Fair value measurements**

Fair value hierarchy

The assets and liabilities measured at fair value are classified by the following level of fair value measurement hierarchy:

**Notes To The Financial Statements For The Financial Year Ended March 31, 2024****17 Financial instruments, financial and capital risk management (Cont'd)****(b) Fair value measurements (Cont'd)**

- (i) quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1);
- (ii) inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2); and
- (iii) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

There are no financial assets measured at fair value.

**Assets and liabilities not measured at fair value****(i) *Trade receivables and trade payables***

The carrying amounts of these receivables and payables (including trade balances due from/to holding company) approximate their fair values as they are subject to normal trade credit terms.

**(ii) *Other receivables, cash at bank and other payables***

The carrying amounts of these balances approximate their fair values due to the short-term nature of these balances.

**(c) Financial risk management**

The Company's activities expose it to a variety of financial risks from its operations. The key financial risks include liquidity risk, credit risk and market risk (including interest rate risk, foreign currency risk and price risk).

The directors review and agree policies and procedures for the management of these risks, which are executed by the management team. It is, and has been throughout the current and previous financial year, the Company's policy that no trading in derivatives for speculative purposes shall be undertaken.

The following sections provide details regarding the Company's exposure to the abovementioned financial risks and the objectives, policies and processes for the management of these risks.

There has been no change to the Company's exposure to these financial risks or the manner in which it manages and measures the risks.

***Liquidity risk***

Liquidity risk is the risk that the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Company has no significant liquidity risk as it maintains a level of cash and cash equivalents that is sufficient for working capital purpose.

**Notes To The Financial Statements For The Financial Year Ended March 31, 2024**

**17 Financial instruments, financial and capital risk management (Cont'd)**

(c) **Financial risk management (Cont'd)**

*Liquidity risk (Cont'd)*

The table below summarises the maturity profile of the Company's financial assets and liabilities at the reporting date based on contractual undiscounted repayment obligations.

	Carrying amount	Cash flows		
		Contractual cash flow	Less than 1 year	Within 2 to 5 years
		S\$	S\$	S\$

*Credit risk*

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in a loss to the Company. The Company's exposure to credit risk arises primarily from trade and other receivables. For other financial assets (including cash at bank), the Company minimises credit risk by dealing exclusively with high credit rating counterparties.

The Company has adopted a policy of only dealing with creditworthy counterparties. The Company performs ongoing credit evaluation of its counterparties' financial condition and generally do not require a collateral.

**Notes To The Financial Statements For The Financial Year Ended March 31, 2024**

**17 Financial instruments, financial and capital risk management (Cont'd)**

(c) **Financial risk management (Cont'd)**

*Credit risk (Cont'd)*

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period.

The Company has determined the default event on a financial asset to be when internal and/or external information indicates that the financial asset is unlikely to be received, which could include default of contractual payments due for more than 60 days past the credit due dates, disputes on the invoiced amount or there is significant difficulty of the counterparty.

Cash at bank are placed with credit worthy financial institutions.

*Trade and other receivables*

The Company has no financial assets exposed to credit loss other than trade receivables.

The Company assessed the latest performance and financial position of the counterparties, adjusted for the future outlook of the industry in which the counterparties operate in, any probable receivables in dispute, past history of bad debts and concluded that there has been no significant increase in the credit risk since the initial recognition of financial assets. Accordingly, the Company measured the impairment loss allowance using lifetime ECL and determined the ECL as disclosed in **Note 4** to the financial statements.

The Company has a significant concentration of credit risk in relation to certain external receivables. The trade receivables as of year-end comprise a customer's (2023: a couple of customers) balance that comprise 93% (2023:98%) of the trade receivable balance. The loan from a related company in other receivables comprise of a party's balance.

The management however does not foresee any risk of default by the parties as they are creditworthy customers. Further details of credit risks on trade receivables are disclosed in **Note 4** to the financial statements.

*Interest rate risk*

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. The Company has no significant exposure to market risk for changes in interest rates because it has no interest-bearing borrowings from any external sources except the loan given to a related company.

*Interest rate sensitivity*

The sensitivity analysis below have been determined based on the exposure to interest rates for financial instruments at statement of financial position date and the stipulated change taking place at the beginning of the financial year and had been constant throughout the reporting period in the case of instruments that have floating rates.

## Notes To The Financial Statements For The Financial Year Ended March 31, 2024

### 17 Financial instruments, financial and capital risk management (Cont'd)

#### (c) Financial risk management (Cont'd)

##### *Interest rate risk (Cont'd)*

##### Interest rate sensitivity (Cont'd)

If interest rates had been 50 basis points higher or lower and all other variables been constant, the Company's profit before tax for the year ended March 31, 2024 would increase or decrease by S\$10,000 (2023: S\$10,000).

##### *Foreign currency risk*

The Company has no significant exposure to foreign currency risk.

##### *Price risk*

The Company has no significant exposure to price risk.

#### (d) Capital risk management

The management considers the capital of the Company to mainly consist of shareholders equity.

The management manages the capital to ensure the Company will be able to continue as a going concern while maximising the return to shareholders through optimisation of the capital.

The management's overall strategy remains unchanged from 2023.

### 18 New accounting standards and FRS interpretations

At the date of authorisation of these financial statements, the following FRS and INT FRS that are relevant to the Company were issued and not effective:

			<b>Effective from annual periods beginning on or after</b>
FRS 1	(Amendments)	: Classification of Liabilities as Current or Non-current	January 1, 2024
FRS 1	(Amendments)	: Non-current Liabilities with Covenants	January 1, 2024
FRS 7/FRS 107	(Amendments)	: Supplier Finance Arrangements	January 1, 2024
FRS 21	(Amendments)	: Lack of Exchangeability	January 1, 2025
FRS 116	(Amendments)	: Lease Liability in a Sale and Leaseback	January 1, 2024

The management anticipates that the adoption of the above FRS and INT FRS does not result in any significant changes to the Company's accounting policies or have any significant impact on the financial statements of the Company.

**19 Reclassification of comparative figures**

Certain reclassifications have been made to the prior year's financial statements to be consistent with the current year's financial statements. Also the management has reclassed unbilled revenue previously shown as contract asset as trade receivables as it consider it is more appropriate and representative based on the nature of the accrued revenue. The reclassification is as follows:

	<u>After reclassification</u>	<u>As previously reported</u>
	S\$	S\$
<b><u>Statement of financial position</u></b>		
Current assets:		
- Trade receivables	499,653	496,903
- Contract asset	-	2,750

**20 Authorisation of financial statements**

These financial statements were authorised for issue in accordance with a resolution of the directors on May 15, 2024.
