Dear Sir,

Sub:- Volume and Stock price of Thinksoft Global Equity Shares

There has been a sudden spurt in the volume of traded shares in conjunction with an increase in stock price of Thinksoft Global Services Limited equity Shares in the last three days for the period September 10, 2012 to September 12, 2012.

When compared to the average trading volume and delivery ratio for the past 100 days, we have observed that the trading volume has gone up and delivery ratio has come down.

In this context we would like to clarify that, other than those reported to the stock exchanges till date, to our best knowledge, there have been no reportable significant developments in the day to day operations of the company and it is "business as usual".

We would like to put this on record, as a measure of transparency, keeping in view the interests of our stakeholders and the tenets of good governance.

Thanking You,
Yours faithfully,
For Thinksoft Global Services Limited
